Like the buds and bees, we have a busy month planned at the library. As you read through this issue of our newsletter, you will find many events and services to take advantage of and enjoy. Of note on the technology front, we will begin loaning out **iPads** for use in the library for 2 hour slots, and if you haven't seen them yet, the two 27-inch **iMacs** are not only functional but gorgeous. Both the iPads and iMacs were generously provided by the Goodnow Library Foundation.

We are particularly proud to announce a new collection: **Kindles**. On April 1, 20 Kindles will be available for check out. Five will be loaded with the hottest young adult fiction available. Five more will have a selection of favorite children's books. For adults, we have loaded up two Kindles with the very popular "Librarian's Choice" collection to match and complement the print collection. In addition, two Kindles will be Mystery-only; featuring a selection of first titles in a series, so you can discover a new great author to explore. We will have one Kindle dedicated to what's new and interesting in non-fiction books, and finally, five Kindles will be dedicated to offering a garden-variety of new, popular adult fiction. To check out a Kindle, please inquire at the main desk.

The **Local Luminaries Series** is hosted by the Friends of the Goodnow Library and has dedicated the series to the Town's celebration of its 375<sup>th</sup> anniversary. The **Friends Annual Book & Bake Sale** is coming up April 4-6 and you won't want to miss this opportunity to support them. You may not know it, but the Friends annually contribute all of the money that pays for Children's and Young Adult Programming, museum passes, the library's copiers and much more. Your membership and participation in the book sale is invaluable!

The month of April highlights the **Local Luminaries Series** with many events:

- April 10: **Douglas M. Thompson** who will present the lecture: *Rivers, Trout and Perceptions of Wildness*
- April 12: Multi-author, daylong event featuring **David Chanoff**, noted non-fiction writer; **Erica Ferencik**, novelist, screenwriter and stand-up comic; **Elin Neiterman**, **Mary Ellen Hoover** and **Dianne James**, Sudbury Historical Society members and authors; **Helen Marie Casey**, award-winning poet, essayist and author. Children's authors and illustrators will highlight **Dara Goldman**, **Miriam Glassman**, **Gwenyth Swain** and **Beth Raisner Glass**.

## April

It's spring! Farewell  
To chills and colds!  
The blushing, girlish  
World unfolds

Each flower, leaf,  
And blade of turf—  
Small love notes sent  
From air to earth.

The sky's a herd  
Of prancing sheep,  
The birds and fields  
Abandon sleep,

And jonquils, tulips,  
Daffodils  
Bloom bright upon  
The wide-eyed hills.

All things renew.  
All things begin.  
At church, they bring  
The lilies in.

# Adult Book Groups

## "The Bookies" Book Discussion Group

The "Bookies" met in February to discuss *The Beautiful Things That Heaven Bears* by Dinaw Mengestu. We had a thoughtful discussion of a book and writer with much to offer. We varied in our enthusiasm, but all agreed it was a subtle and thought provoking book.

We also chose our next title, *Founding Mothers: the Women Who Raised Our Nation* by Cokie Roberts, published in 2004. Cokie Roberts offers a look at the women--mostly wives and mothers--who supported the men credited with creating the U.S. Lamenting the dearth of history about these women, Roberts primarily draws on letters and diaries to document their significant contributions - the Bookies' members, men and women, will raise all stakes that women have raised our nation well!

Our next meeting will be on **Tuesday, April 8 at 7 pm**. Feel free to ask for a copy of the book at the Circulation Desk and join in with our friendly group.

## The Books in Bloom Book Group

Do you love to read? Do you enjoy arranging fresh flowers or silk flowers? Would you like to combine your two interests and share them with a group? We are a new Book Discussion/Flower Arranging group that meets on the 2nd Friday of each quarter at 10:30-12 noon in the Conference Room at the Goodnow Library.

Next up, we will make a group arrangement based on *My Beloved World* by Sonia Sotomayor on Friday, April 11<sup>th</sup>.

Please bring a silk or fresh flower and we will create the arrangement together!

Books will be ordered by Maureen Hines, Group Leader, and will be available at the Goodnow Library. Just bring yourself, your creativity, and a sense of fun to the meeting. We will share a love of books and a love of arranging flowers--No expertise is needed. This program is free and sponsored by the Goodnow Library.

Hope to see you there

## *Looking for Fun Apps for Kids?*

### **Children's App Review: Endless Alphabet by Callaway Digital Arts**

[\\$6.99 in iTunes Store, iPad and iPhone](#)

*If it was possible to have a fun AND educational app, the guys at Callaway Digital Arts, have done it. Endless Alphabet is amazing from start to finish and is something kids (and adults) of all ages can enjoy.*

*The concept of the app is basic: spelling new vocabulary words while learning phonetic sounds of letters. The app opens to reveal a long list of words accompanied by adorable illustrations with monster actors (the list of words grows over time). Once you select a word, the letters scramble all over a new screen, with an outline of each letter in the word. Touch a letter to hear the phonetic sound ("B" is "buhhh, buhhh", etc.) and then drag it to the appropriate spot in the word. Once all of the letters are matched in the correct places, the player is met with a round of applause and a cute, clever definition of the word read and acted out for them. Players can take as long as they like to spell a word and there are not any "scores" kept in this app.*

*Overall, this app, while more expensive than others like it, encourages learning, creativity and early literacy in a remarkably fun and easy environment. A must buy for any tech savvy family!*

### **RIVERS, TROUT AND PERCEPTIONS OF WILDNESS**

Dr. Thompson's book *The Quest for the Golden Trout* tells the story of how American's love of trout fishing helped spur massive reconfigurations of river ecosystems.

As a specialist in the physical characteristics of rivers, Dr. Thompson provides a unique perspective on the impact of human manipulation of river environments for trout fishing.

Sudbury native Douglas Thompson studied geology and geography at Middlebury College before obtaining his MS and PhD in Earth Resources at Colorado State University. He is currently the Karla Heurich Harrison '28 Director of the Goodwin-Niering Center for the Environment, and a professor of geology in the Department of Physics, Astronomy and Geophysics at Connecticut College.
