video/music production

WHAT IS A **Maker Space?**

A place for people to create, collaborate, innovate, and inspire.

Come to our Focus Groups to share your ideas and expertise as we are planning for our NOW Lab! We are looking for teachers, educators, administrators and anyone in the education field to help us brainstorm.

Please register at <http://bit.ly/nowlabfocus> so we can expect you!

Rescheduled!

Tuesday, March 21

3:45-4:30 p.m.

Why do we want to build a Maker Space @ Goodnow?

Our library has been evolving into a community hub for many different types of learning. The community was introduced to the concept of providing space for production and creation last year with our Family STEM Fair and our Tinker Time FUN-Raiser events. We are now fundraising to create a Maker Space where users of all ages can tinker with programming, designing, and building and learn through failure.
