

PARKING

at
the
library

Parking is limited
and we are very popular.

In June, we were surprised as you were that the property managers of the lot next door had installed signs announcing that parking was not allowed except by customers of the plaza, or they would be towed. As the library has gotten busier and busier, we increasingly relied on that lot for overflow parking. This is no longer an option for us.

We understand your frustration and have engaged in a conversation with the property owners about options for renting or leasing space.

In the meantime, consider carpooling, biking or hiking!

Additionally, there is a limited number of public parking spaces on Church Street.

We will publish any news regarding the "Parking Crush" as they develop.

Thank you,
